In-Country (Peru) Exploration Manager Appointment

Inca Minerals Limited (“Inca” or “Company”) is very pleased to announce the appointment of Mr David Bent as Inca’s In-Country Exploration Manager in Peru.

Referring to Mr Bent’s appointment, Inca’s Managing Director, Mr Ross Brown, said “David has in excess of 35 years experience in exploration for base and precious metals in over a dozen countries including some 15 years in Peru. He’s been involved with the discovery and development of a significant porphyry related copper-zinc project and an equally significant silver-zinc project, both in South America. His appointment adds considerable expertise and experience to Inca’s team during a very exciting period in the Company’s exploration and development of its Peruvian projects.”

Mr David Bent - Brief Biography

Mr David Bent is a Geologist by profession. Prior to joining Inca, Mr Bent was Vice President of Exploration for Vena Resources Inc. with responsibility for directing exploration of that company’s projects in Peru. Mr Bent also held a number of senior positions with Noranda Mines where he played an integral role in the discovery of Real de Angeles (Ag – Zn) in Mexico which, at one point in time, was the second largest silver producer in the world, and in the development of the Antamina (Cu – Zn) mine in Peru – the largest copper – zinc porphyry related skarn deposit in the world and presently expanding from 70,000 tonnes per day to 120,000 tonnes per day with reserves in excess of 822 million tonnes.

Mr Bent has also held senior positions with Newmont Mining and Normandy Mining in Peru and UNOR Inc. in Canada. Mr Bent earned his B.Sc. in Geology from Acadia University, is bi-lingual (English & Spanish), and is a member of the Association of Professional Geoscientists of Nova Scotia.
