IMPORTANT INFORMATION

General

This Prospectus is dated, and was lodged with ASIC on, 1 July 2016. Neither ASIC nor ASX nor their respective officers take any responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No Securities will be issued on the basis of this Prospectus any later than 13 months after the date of this Prospectus (being the expiry date of this Prospectus).

The Company will apply to ASX within seven days of the date of this Prospectus for Official Quotation by ASX of the New Shares offered by this Prospectus.

A copy of this Prospectus is available for inspection at the Australian registered office of the Company at Suite 1, 16 Nicholson Road, Subiaco, Western Australia during normal business hours. The Company will provide a copy of this Prospectus to any person on request. The Company will also provide copies of other documents on request (refer to Sections 6.1 and 6.12). Eligible Shareholders can obtain a copy of this Prospectus during the period of the Entitlement Offer on the Company's website.

No person or entity is authorised to give any information or to make any representation in connection with the Offers which is not contained in this Prospectus. Any information or representation not contained in this Prospectus should not be relied on as having been made or authorised by the Company or the Directors in connection with the Offers.

Application Forms

The Application Forms accompanying this Prospectus are important. Application of New Shares under the Offers can only be submitted on an Application Form. If acceptance is by BPAY® there is no need to return an original Application Form. The Entitlement and Acceptance Form sets out an Eligible Shareholder's Entitlement. Please refer to instructions in Section 3 regarding the acceptance of your Entitlement and completion of the Entitlement and Acceptance Form.

By returning an Application Form, you acknowledge that you have received and read this Prospectus and you have acted in accordance with the terms of the Offers detailed in this Prospectus.

Foreign Investors

No action has been taken to permit the offer of Securities under this Prospectus in any jurisdiction other than Australia and New Zealand. The distribution of this Prospectus in jurisdictions outside Australia and New Zealand may be restricted by law and therefore persons into whose possession this Prospectus comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions may constitute a violation of those laws. This Prospectus does not constitute an offer of Securities in any jurisdiction where, or to any person to whom, it would be unlawful to issue this Prospectus.

Continuously Quoted Securities

In preparing this Prospectus, regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and that certain matters may reasonably be expected to be known to investors and their professional advisers. This Prospectus is issued pursuant to section 713 of the Corporations Act. This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all information that would be included in a prospectus for an initial public offering.

Exposure Period

No exposure period applies to the Offers.

Speculative Investment

An investment in the Securities offered under this Prospectus should be considered highly speculative. Refer to Section 4 for details of the key risks applicable to an investment in the Company.

Persons wishing to apply for Securities offered under this Prospectus should read this Prospectus in its entirety in order to make an informed assessment of the assets and liabilities, financial position and performance, profits and losses and prospects of the Company and the rights and liabilities attaching to the Securities offered pursuant to this Prospectus.

This Prospectus does not take into account the investment objectives, financial or taxation or particular needs of any Applicant. Before making any investment in the Company, each Applicant should consider whether such an investment is appropriate to his/her particular needs, their individual risk profile for speculative investments, investment objectives and individual financial circumstances. If persons considering applying for Securities offered pursuant to this Prospectus have any questions, they should consult their stockbroker, solicitor, accountant or other professional adviser.

There is no guarantee that the Securities offered under this Prospectus will make a return on the capital invested, that dividends will be paid on the New Shares or that there will be an increase in the value of the New Shares in the future.

Forward-looking Statements

This Prospectus contains forward-looking statements which may be identified by words such as "believes", "estimates", "expects", "intends", "may", "will", "would", "could", or "should" and other similar words that involve risks and uncertainties. These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and management of the Company. Key risk factors associated with an investment in the Company are detailed in Section 4. These and other factors could cause actual results to differ materially from those expressed in any forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

The Company cannot and does not give assurances that the results, performance or achievements expressed or implied in the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

Competent persons statement and consents

Information in this Prospectus that relates to the styles of mineralisation for the Riqueza Project is based on information compiled by Mr Ross Brown BSc (Hons), MAusIMM, SEG, MAICD Managing Director, Inca Minerals Limited, who is a Member of the Australasian Institute of Mining and Metallurgy. He has sufficient experience, which is relevant to the styles of mineralisation and types of deposits under consideration, and to the activity which has been undertaken, to qualify as a Competent Persons as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Brown is a full time employee of Inca Minerals Limited and has consented to the inclusion of the statements in this Prospectus based on their information in the form and context in which it appears and have not, before the lodgement of this Prospectus with ASIC, withdrawn their consent. Some of the information in this Prospectus may relate to previously released information concerning the styles of mineralisation for the Riqueza Project and subsequently prepared and first disclosed under the JORC Code 2004. It has not been updated to comply with the JORC Code 2012 on the basis that the information has not materially changed since it was last reported.

MANAGING DIRECTOR'S LETTER

1 July 2016

Dear Fellow Shareholder,

On behalf of the Board I am pleased to present the Prospectus for Inca Minerals Limited's (**Inca** or **Company**) Entitlement Offer to Shareholders and Placement Offer to investors.

The Entitlement Offer is a non-renounceable pro-rata entitlement issue to Shareholders of 1 New Share for every 2 Shares held by Shareholders at an issue price of \$0.004 per New Share to raise up to approximately \$2,476,960 (before associated costs). This Entitlement Offer is made to all Inca Shareholders with a registered address in Australia or New Zealand on the Record Date, being 7 July 2016, and represents a **30% discount** to the 10 day VWAP and a **33% discount** to the market price as at close of trading on 30 June 2016.

In addition to the Entitlement Offer, Inca may also undertake a Placement Offer to investors to raise up to approximately \$429,988 (before associated costs) at an issue price of \$0.004 per New Share. Further details are provided within this Prospectus.

The Board is very pleased to advise that the Company's largest shareholder, Resource Capital Fund VI L.P., having recently increased their shareholding in the Company to 18%, have indicated their continued support during the Entitlement Offer and that such support will not exceed 19.9% of the Company's issued capital.

Use of Funds Raised – The Riqueza Project

In April 2016 Inca acquired the rich zinc (Zn), silver (Ag) and lead (Pb) Riqueza Project (**Riqueza** or **Project**) located in Peru. Riqueza hosts two highly prospective areas, the Humaspunco Prospect (**Humaspunco**) and the Uchpanga Prospect (**Uchpanga**). These prospects were the focus of small-scale artisanal mining last century and host significant concentrations of Zn-Ag-Pb mineralisation.

Humaspunco hosts at least **20 veins** (10 of which are sampled) and **3 mantos**. Two of the veins are believed to be feeder-zones. Extensions of the veins are likely to the west and at depth. Extensions of the mantos are likely to the west and south. A 700m x 500m +1% Zn soil anomaly corresponds to and extends significantly from the known veins and mantos.

Assay results from extensive phases of surface sampling at Riqueza point to the potential of Humaspunco, Uchpanga and surrounding areas. Average grades from sampling at Humaspunco are strong with:

- Six of the known veins and three mantos averaging **7.18% Zn, 205.36g/t Ag and 10.71% Pb** (from 262 samples in the most recent sampling programme); and
- Another four of the sampled veins (recorded in prior sampling programmes) averaging:
 - **12.41% Zn, 373.75g/t Ag and 11.97% Pb.**
 - **8.21% Zn, 220.31g/t Ag and 13.91% Pb.**
 - **4.24% Zn, 135.94g/t Ag and 4.74% Pb.**
 - **7.49% Zn, 259.85g/t Ag and 14.29% Pb.**

Uchpanga is now known to host at least **1 dyke, 1 manto** and a **600m long gossan** (weathered massive to semi-massive sulphide horizon). The dyke, which is 7m wide, is believed to be a feeder-zone. The manto is 12m thick and, as such, is the widest known to date at Riqueza. The gossan most likely represents an extension of the manto which is as yet unsampled by Inca. Average grades recorded from sampling of the Uchpanga dyke are similar to those at Humaspunco with **6.94% Zn, 94.97g/t Ag and 8.77% Pb.**

The Company intends to investigate all known zones of mineralisation at Riqueza and to thoroughly test possible extensions and discoveries in the Project area. High priority targets will be generated in immediate programmes whilst obtaining the necessary drill permit is expedited. Drill testing will commence in the soonest timeframe.

The Company intends using the funds raised under the Entitlement Offer and the Placement Offer to conduct its exploration programs primarily on the Riqueza Project with remaining funds to provide the Company with additional working capital.

Please read this investment opportunity and Prospectus carefully. An investment in the Company contains specific risks which you should consider before making a decision to invest. If you are unsure or require further information you should obtain the appropriate professional advice.

The Board looks forward to reporting exploration results at Riqueza in the near future and looks forward to your continued support.

Yours sincerely

A handwritten signature in blue ink, appearing to read "R. Brown", is positioned above the typed name and title.

1. Details of the Offers

1.1 The Entitlement Offer

The Entitlement Offer is a non-renounceable pro rata entitlement issue of 1 New Share for every 2 Shares held by Shareholders on the Record Date at an issue price of \$0.004 per New Share (**Entitlement Offer**) to raise up to approximately \$2,476,960 (before associated costs).

Under this Prospectus, Eligible Shareholders on the Record Date are eligible to participate in the Entitlement Offer.

At the date of this Prospectus, the Company has 1,238,480,149 Shares on issue. Accordingly, the Entitlement Offer is for the issue of up to approximately 619,240,075 New Shares.

Where the determination of the Entitlement of any Shareholder results in a fraction of a New Share, such fraction will be rounded up to the nearest whole New Share.

Refer to Section 5.1 for a summary of the rights attaching to New Shares.

1.2 Reasons for the Offers and Funding Allocation

The purpose of the Entitlement Offer is to raise up to approximately \$2,476,960 (before associated costs). The Placement Offer, if undertaken, will also raise up to approximately \$429,988 (before associated costs). The Offers will potentially raise up to approximately \$2,906,948 (before associated costs).

Funds raised under the Offers will allow the Company to conduct exploration programs at the Company's Riqueza Project in Peru and provide the Company with additional working capital.

The funds raised under the Offers are proposed to be expended as follows:

Description of Cash Outflows	(A\$) ⁽¹⁾	(A\$) ⁽²⁾	(A\$) ⁽³⁾
Riqueza Exploration Programmes	1,849,158	\$2,068,497	969,094
Associated Costs of the Offers	52,802	53,451	49,386
Working Capital	575,000	785,000	220,000
Total Funds Raised Under the Offers	\$2,476,960	\$2,906,948	\$1,238,480

Notes:

1. Assuming the Entitlement Offer is fully subscribed and no Placement Offer occurs.
2. Assuming the Entitlement Offer is fully subscribed and the Placement Offer occurs.
3. Assuming the Entitlement Offer is 50% subscribed and no Placement Offer occurs

Actual expenditure may differ significantly from the above estimates due to a number of factors including market conditions, \$US/\$A exchange rates, the development of new opportunities, the results obtained from the staged approach to exploration, appraisal and development activities and other factors (including the risk factors outlined in Section 4).

In addition to the above listed associated costs of the Offers the Company reserves the right to pay a commission of up to 6% (exclusive of goods and services tax) of amounts subscribed through any licensed securities dealers or Australian financial services licensee in respect of any

valid Applications lodged and accepted by the Company (further information is provided in Section 6.8). Payment will be subject to the receipt of a proper tax invoice from the licensed securities dealer or Australian financial services licensee.

If less than \$2,906,948 (before associated costs) is raised pursuant to the Offers, the Company will firstly pay the associated costs of the Offers and then scale back funds available for exploration activities and working capital.

1.3 Minimum Subscription

There is no minimum subscription for the Offers.

1.4 Opening and Closing Dates

The Company will accept Entitlement and Acceptance Forms in respect to the Entitlement Offer from Eligible Shareholders from the Opening Date until 5:00pm (WST) on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the Listing Rules.

1.5 Shortfall Offer

Any New Shares under the Entitlement Offer that are not applied for will form the Shortfall Shares. The offer to issue Shortfall Shares is a separate offer under this Prospectus (**Shortfall Offer**).

Under this Prospectus, the Company offers to issue the Shortfall Shares to an investor at the same price of \$0.004 per New Share as that offered under the Entitlement Offer. The Shortfall Shares will have the same rights as the New Shares as detailed in Section 5.1.

Eligible Shareholders may apply for Shortfall Shares by completing the relevant section of their Entitlement and Acceptance Form (refer to Section 3.4 for further details).

Other investors may also apply for Shortfall Shares by completing the Shortfall Application Form upon invitation from the Company.

Shortfall Shares may be allocated to any Eligible Shareholder or to other investors who applies for Shortfall Shares under the Shortfall Offer, at the absolute discretion of the Directors.

Shortfall Shares will not be issued to any Applicant if, in the view of the Directors, to do so would increase that Applicant's voting power in the Company above 19.9% or otherwise result in a breach of the Listing Rules, the Corporations Act or any other applicable law.

An Application for Shortfall Shares accompanied by payment of the Application Monies does not guarantee the allotment of any Shortfall Shares. The Shortfall Shares will be allocated within three months after the Closing Date.

In relation to the Shortfall Offer, the Company reserves the right to issue to an Applicant a lesser number of Shortfall Shares than the number applied for, reject an Application or not proceed with the issuing of the Shortfall Shares or part thereof. If the number of Shortfall Shares issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

1.6 Underwriting

The Offers are not underwritten.

1.7 Placement Offer

The offer to issue Placement Shares is a separate offer made pursuant to this Prospectus. As at the date of this Prospectus, the Directors have elected to make a decision on whether to proceed with the Placement Offer after the Entitlement Offer closes.

Under this Prospectus, the Company offers to issue up to 107,497,121 Placement Shares to investors at the same price of \$0.004 per New Share as that offered under the Entitlement Offer (**Placement Offer**). The Placement Shares will have the same rights as the New Shares as detailed in Section 5.1.

Placement Shares may be allocated to any person who completes a Placement Application Form upon invitation from the Company, at the discretion of the Directors. The Placement Offer will remain open after the Closing Date and the Placement Shares will be allocated within three months after the Closing Date.

An Application for Placement Shares accompanied by payment of the Application Monies does not guarantee the allotment of any Placement Shares.

In relation to the Placement Offer, the Company reserves the right to issue to an Applicant a lesser number of Placement Shares than the number applied for in a Placement Application Form, reject an Application or not proceed with the issuing of the Placement Shares or part thereof. If the number of Placement Shares issued is less than the number applied for in a Placement Application Form, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

Applicants for Placement Shares should complete the Placement Application Form in accordance with the instructions detailed on the form and return the completed Placement Application Form together with the Application Monies (in full) to the Share Registry at:

Advanced Share Registry Services
PO Box 1156
Nedlands WA 6909
Email: admin@advancedshare.com.au

If Shareholders or investors wish to apply for Placement Shares they should email the Share Registry for a Placement Application Form on: admin@advancedshare.com.au.

1.8 Entitlements Trading

The Entitlement Offer is non-renounceable which means that Eligible Shareholders who do not exercise all or some of their Entitlements may not then otherwise sell, transfer or dispose of their remaining Entitlements to any other party. If an Eligible Shareholder does not take up their Entitlements to New Shares on or before the Closing Date then the Entitlement Offer to that Eligible Shareholder will lapse and their shareholding will be diluted with no compensating benefits. New Shares which are not subscribed for by Eligible Shareholders will become Shortfall Shares.

1.9 Risks of the Offers

As with any securities investment, there are risks associated with investing in the Company. However, having regard to the matters detailed in Section 1.2 and the risk applicable to the Company and its business detailed in Section 4, Eligible Shareholders should be aware that an investment for the Securities offered under this Prospectus should be considered highly speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment.

Before deciding to invest in the Company, investors should read this Prospectus in its entirety, in particular the specific risks associated with an investment in the Company (detailed in Section 4), and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

1.10 Application Forms and BPAY® Payments

Acceptance of a completed Application Form, or alternatively, a BPAY® payment, by the Company creates a legally binding contract between the Applicant and the Company for the number of New Shares accepted by the Company. The Application does not need to be signed to be a binding acceptance of New Shares.

If the Application Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Application Form is final.

1.11 Issue and Despatch

New Shares under the Entitlement Offer are expected to be issued, and security holder statements despatched, on or before the date in the Indicative Timetable.

Shortfall Shares and Placement Shares may be issued within three months after the Closing Date.

It is the responsibility of Applicants to determine their allocation prior to trading in New Shares. Applicants who sell New Shares before they receive their holding statements do so at their own risk.

1.12 Application Monies held on trust

All Application Monies will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the New Shares are issued. All Application Monies will be returned (without interest) if the New Shares are not issued.

1.13 ASX Quotation

Application will be made to ASX no later than seven days after the date of this Prospectus for Official Quotation of the New Shares offered pursuant to this Prospectus. If ASX does not grant Official Quotation of the New Shares offered by this Prospectus within three months after the date of this Prospectus (or such period as the ASX allows), no New Shares will be issued or allotted under the Offers and the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Official Quotation is not to be taken in any way as an indication of the merits of the Company or the New Shares offered pursuant to this Prospectus.

1.14 Effect on Control

The Company has not appointed a nominee in respect of the Entitlements of Foreign Shareholders pursuant to section 615 of the Corporations Act. Accordingly, the exemption to the 20% takeovers threshold under item 10 of section 611 of the Corporations Act is not available to Shareholders taking up their Entitlement under the Entitlement Offer.

No Shares will be issued to any Shareholder or Applicant pursuant to this Prospectus if, in the view of the Directors, to do so would increase that Shareholder's or Applicant's voting power in the Company above 19.9% or otherwise result in a breach of the Listing Rules, the Corporations Act or any other applicable law.

The Company's largest shareholder, Resource Capital Fund VI L.P., has indicated that it will participate in the Entitlement Offer and the extent of its participation it will not result in its voting power in the Company exceeding 19.9%.

The Offers are not expected to give rise to control implications for the Company albeit that the effect of the Offers on the voting power in the Company, for the purposes of the Corporations Act, is dependent upon the number of New Shares taken up, the number of Shortfall Shares taken up and the impact of the Placement Offer (if it occurs).

1.15 Withdrawal

The Directors may at any time decide to withdraw this Prospectus and the Offers, in which case, the Company will return all Application Monies (without interest) in accordance with the provisions of the Corporations Act.

1.16 CHESS

The Company participates in the Clearing House Electronic Subregister System, known as CHESS. ASX Settlement, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and Securities Clearing House Business Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of Securities. If you are broker sponsored, ASX Settlement will send you a CHESS statement.

The CHESS statement will set out the number of Securities issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Securities.

If you are registered on the Issuer Sponsored subregister, your statement will be despatched by Advanced Share Registry Services and will contain the number of Securities issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

1.17 Foreign Shareholders

The Entitlement Offer is not being extended to any Shareholders whose registered address is outside Australia or New Zealand. The Company is of the view that it is unreasonable to make the Entitlement Offer to Shareholders outside Australia and New Zealand, having regard to:

- (a) the number of those Shareholders;
- (b) the number and value of Shares to be offered to those persons; and
- (c) the cost of complying with overseas legal requirements.

The Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer other than for Shareholders in Australia and New Zealand. The Company is not required to make offers under the Prospectus to Shareholders other than in Australia and New Zealand. Where the Prospectus has been despatched to Shareholders domiciled outside Australia or New Zealand and where the country's securities code or legislation prohibits or restricts in any way the making of the offer contemplated by the Prospectus, the Prospectus is provided for information purposes only. Shareholders resident in Australia and New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up Entitlements under the Entitlement Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

1.18 Taxation Implications

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for Securities under this Prospectus.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders. Shareholders should consult their own professional taxation advisers to obtain advice in relation to the taxation laws, regulations and implications applicable to their personal circumstances.

1.19 Major Activities and Financial Information

A summary of the major activities and financial information relating to the Company for the financial year ended 30 June 2015 is in the Annual Report lodged with the ASX on 23 October 2015 and available on the Company's website at www.incaminerals.com.au.

A summary of activities relating to the Company for the half year ended 31 December 2015 is in the half yearly report, lodged with ASX on 14 March 2016 and available on the Company's website at www.incaminerals.com.au. The Company's continuous disclosure notices (i.e. ASX announcements) since the lodgement of its Annual Report with ASX on 23 October 2015 are detailed in Section 6.1.

Copies of these documents are available free of charge from the Company or the Company's website: www.incaminerals.com.au. Directors strongly recommend that Shareholders review these and all other announcements prior to deciding whether or not to participate in the Offers.

1.20 Privacy

The Company collects information about each Applicant provided on an Application Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant's security holding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes detailed in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on Application Form, the Company may not accept or process your Application.

An Applicant has an entitlement to gain access to the information that the Company holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests must be made in writing to the Company's registered office.

1.21 Enquiries Concerning Prospectus

Enquiries relating to this Prospectus should be directed to the Company's Managing Director or Company Secretary by email on: info@incaminerals.com.au.

2. Effect of the Offers

2.1 Capital Structure on completion of the Offers

On the basis that the Company completes the Offers on the terms in this Prospectus, the Company's capital structure will be as follows:

	Number of Shares ⁽¹⁾	Number of Shares ⁽²⁾	Number of Shares ⁽³⁾
Balance as at the date of this Prospectus	1,238,480,149	1,238,480,149	1,238,480,149
Entitlement Offer	619,240,075	619,240,075	309,620,037

Notes:

1. Assuming the Entitlement Offer is fully subscribed and the Placement Offer does not occur, the New Shares issued under the Offers will represent approximately 33.33% of the enlarged issued share capital of the Company following the Offers.
2. Assuming the Entitlement Offer is fully subscribed and the Placement Offer does occur then the New Shares issued under the Offers will represent approximately 36.98% of the enlarged issued capital of the Company following the Offers. The issue of New Shares under the Placement Offer is subject to the Directors deciding to proceed with the Placement Offer (refer to Section 1.7).
3. Assuming the Entitlement Offer is 50% subscribed and the Placement Offer does not occur, the New Shares issued under the Offers will represent approximately 20% of the enlarged issued share capital of the Company following the Offers.

2.2 Pro-Forma Statement of Financial Position

Set out on the following pages are the Company's Consolidated Statement of Financial Position as at 31 May 2016 (unaudited) and the Company's Pro-Forma Consolidated Statement of Financial Position as at 31 May 2016 (unaudited) (**Statements**).

The Statements are presented in abbreviated form insofar as they do not include all the disclosures that are present in annual financial reports as required by Australian Accounting Standards. The significant accounting policies that underpin the Statements are the same policies as those outlined in the Company's audited Annual Financial Report for the Year Ended 30 June 2015.

The Scenario 1 Pro-Forma Statement of Financial Position as at 31 May 2016 has been prepared on the assumption that the Entitlement Offer is fully subscribed and raises \$2,476,960 (before associated costs) and no Placement Offer occurs.

The Scenario 2 Pro-Forma Statement of Financial Position as at 31 May 2016 has been prepared on the assumption that the Entitlement Offer is fully subscribed and the Placement Offer occurs and together, in total, raise \$2,906,948 (before associated costs).

The Scenario 3 Pro-Forma Statement of Financial Position as at 31 May 2016 has been prepared on the assumption that the Entitlement Offer is 50% subscribed and raises \$1,238,480 (before associated costs) and no Placement Offer occurs.

3. Action required by Shareholders

3.1 Eligible Shareholders

Your entitlement to participate in the Entitlement Offer will be determined on the Record Date. The number of New Shares to which Eligible Shareholders are entitled is shown on the accompanying Entitlement and Acceptance Form. If you do not take up your Entitlement, then your percentage holding in the Company will be diluted without any compensating benefits.

If you are an Eligible Shareholder you may either:

- (a) take up all or part of your Entitlement in accordance with this Prospectus;
- (b) take up all of your Entitlement and apply for New Shares in excess of your Entitlement by applying for Shortfall Shares in accordance with this Prospectus;
- (c) take up part or none of your Entitlement in accordance with this Prospectus and allow the balance of your Entitlement to lapse.

If you are an Eligible Shareholder and wish to take up all or part of your Entitlement:

- (a) carefully read this Prospectus in its entirety;
- (b) consider the risks associated with an investment in the Company (refer to Section 4) in light of your personal circumstances;
- (c) complete the personalised Entitlement and Acceptance Form in accordance with the instructions detailed on the form; and
- (d) return the completed Entitlement and Acceptance Form together with the Application Monies (in full) in accordance with Section 3.6, to the following address so that it is received by no later than 5:00pm (WST) on the Closing Date:

Advanced Share Registry Services
PO Box 1156
Nedlands WA 6909
Email: admin@advancedshare.com.au

3.2 Non-Eligible Shareholders – Foreign Shareholders

If you are a Foreign Shareholder, you may not take up any of, or do anything in relation to, your Entitlement. For reasons outlined in Section 1.17 the Offers are not extended to and New Shares will not be issued to Shareholders with a registered address outside of Australia or New Zealand. Where the Prospectus has been despatched to Shareholders domiciled outside Australia or New Zealand and where the country's securities code or legislation prohibits or restricts in any way the making of the offer contemplated by the Prospectus, the Prospectus is provided for information purposes only. Shareholders resident in Australia and New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up Entitlements under the Entitlement Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

3.3 Acceptance of all of your Entitlement

If you wish to accept all of your Entitlement, then applications for Securities under this Prospectus must be made on the Entitlement and Acceptance Form in accordance with the instructions referred to in this Prospectus and on the Entitlement and Acceptance Form. Please read the instructions carefully.

Please complete the personalised Entitlement and Acceptance Form in accordance with the instructions detailed on the form and return the completed form, together with the Application Monies (in full), in accordance with Section 3.6 to the Share Registry so that it is received at the following address by no later than 5:00pm (WST) on the Closing Date:

Advanced Share Registry Services
PO Box 1156
Nedlands WA 6909
Email: admin@advancedshare.com.au

3.4 Acceptance of all of your Entitlement and applying for Shortfall Shares

If you wish to accept all of your Entitlement and apply for New Shares in excess of your Entitlement by applying for Shortfall Shares, then applications for Shortfall Shares must be made by completing the relevant sections on the Entitlement and Acceptance Form, in accordance with the instructions referred to in this Prospectus and on the Entitlement and Acceptance Form. Please read the instructions carefully.

Please complete the personalised Entitlement and Acceptance Form in accordance with the instructions detailed on the form and return the completed form, together with the Application Monies (in full), in accordance with Section 3.6, to the Share Registry so that it is received at the following address by no later than 5:00pm (WST) on the Closing Date:

Advanced Share Registry Services
PO Box 1156
Nedlands WA 6909
Email: admin@advancedshare.com.au

3.5 Taking up part or none of your Entitlement and allowing the balance to lapse

If you wish to take up only part of your Entitlement, complete the personalised Entitlement and Acceptance Form in accordance with the instructions detailed on the form, including the number of Shares you wish to accept and the Application Monies (calculated at \$0.004 per New Share accepted) and return the completed Entitlement and Acceptance Form together with the Application Monies (in full) in accordance with Section 3.6 to the Share Registry so that it is received at the following address by no later than 5:00pm (WST) on the Closing Date:

Advanced Share Registry Services
PO Box 1156
Nedlands WA 6909
Email: admin@advancedshare.com.au

If you do not wish to take up any of your Entitlement, then you are not obliged to take any action, the Offer lapses, and you will not receive any compensating benefit.

3.6 Payment

The offer price of News Shares under the Entitlement Offer, Shortfall Offer or Placement Offer is \$0.004 per New Share.

For all Eligible Shareholders, payments must be received by 5:00pm (WST) on the Closing Date.

Completed Application Forms must be accompanied by a cheque, drawn in Australian dollars, made payable to "Inca Minerals Limited" and crossed "Not Negotiable".

For Eligible Shareholders, if you wish to pay via BPAY® you must follow the instructions in the Entitlement and Acceptance Form. You will be deemed to have accepted your Entitlement upon receipt of the BPAY® payment by the Company.

If paying via BPAY®, Eligible Shareholders should be aware that their own financial institution may implement earlier cut off times with regards to electronic payment and it is the responsibility of Eligible Shareholders to ensure that funds are submitted through BPAY® by the date and time mentioned above. If you elect to pay via BPAY®, you must follow the instructions for BPAY® set out in the Entitlement and Acceptance Form and you will not need to return the Entitlement and Acceptance Form.

The Company shall not be responsible for any postal or delivery delays or delay in the receipt of the BPAY® payment.

3.7 Brokerage

No brokerage or stamp duty is payable by Shareholders who accept their Entitlement to Shares.

3.8 Enquiries concerning your Entitlement

If you have any queries concerning your Entitlement please contact the Company's Managing Director or Company Secretary by email: info@incaminerals.com.au.

4. Risk factors

The Securities offered under this Prospectus are considered highly speculative and carry no guarantee with respect to the payment of dividends or returns of capital. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consult their professional advisers and consider the risks factors described below, together with information contained elsewhere in this Prospectus, before deciding whether to apply for Securities pursuant to this Prospectus.

The following list of risk factors ought not to be taken as exhaustive of all the risks faced by the Company or by Shareholders. The proposed future activities of the Company are subject to a number of risks and other factors which may impact its future performance. Some of these risks can be managed and mitigated by planning and the use of safeguards and appropriate controls. However, many of the risks are outside the control of the Company or the Directors and cannot be mitigated.

4.1 Company Specific Risk

(a) General

The business, assets and operations of the Company are subject to certain risk factors that have the potential to influence the operating and financial performance of the Company in the future. These risks can impact on the value of an investment in the securities of the Company.

The Board aims to manage these risks by carefully planning its activities and implementing risk control measures. Some of the risks are, however, highly unpredictable and the extent to which they can be effectively managed is limited.

(b) Additional Requirements for Capital

Since its inception the Company's principal activity has been and remains the exploration for commercially exploitable mineral deposits and the Company does not as yet generate revenue from its principal activity. Accordingly, the Company requires continual equity or debt funding to meet existing and future expenditure requirements and there is no guarantee the Company will secure sufficient funding to implement its exploration intentions as outlined in the Prospectus. Should the Company require additional funding there can be no assurance that additional funding will be available on acceptable terms, or at all. An inability to obtain additional funding, if required, would have a material adverse effect on the Company's business, financial condition and performance and the Company's ability to continue as a going concern.

(c) Permit Risk

The Company's main exploration projects are located in Peru. While not all exploration activities on the Company's projects require permits, some exploration activities involving drilling cannot be conducted without the requisite government permits. There is a risk of delay or that applicable laws, regulations or the governing authorities will change or that such changes will result in additional material expenditures or time delays. There is also a risk that the necessary land acquisitions, permits, certificates, consents, authorisations and agreements required to implement future exploration,

project development, or mining of the Company's projects may not be obtained under conditions or within time frames that make such plans economic.

(d) **Operating Risk**

The operations of the Company may be affected by various factors not within its control. Funds raised under the Offers are intended to be used to conduct exploration programs at the Company's Riqueza Project in Peru and as additional working capital where warranted. The operations of the Company may be affected by failure to locate or identify commercially viable mineral deposits, unanticipated metallurgical problems which may affect eventual extraction costs, possible seismic activity, operational and technical difficulties encountered in drilling and exploration, operating and maintaining plant and equipment, mechanical failure, industrial and environmental accidents, labour shortages, industrial and environmental disputes, obtaining government approvals, adverse weather conditions, fire, explosions, rock falls, unusual or unexpected rock formations, and unexpected shortages or increases in the costs of consumables, spare parts, plant, equipment or labour. The Company's projects are located within Peru's Andes mountain range and there is a risk that heavy snow fall or rain may adversely impact the Company's exploration activities. These risks and hazards could also result in damage to or destruction of property, plant and equipment, personal injury, environmental damage, business interruption, monetary losses and possible legal liability. The Company may become subject to liability for accidents, pollution or other hazards against which it cannot insure or against which it may elect not to insure because of premium costs or for other reasons, or in amounts which exceed policy limits.

No assurances can be given that the Company will achieve commercial viability through exploration success and exploitation of its projects and, until the Company is able to realise value from its projects, it is likely to incur ongoing operational losses.

(e) **Social Licence Risk**

Engagement with and approval from traditional communities with surface rights and interests in the Riqueza Project is an important requirement for continued operations in Peru. If local communities become dissatisfied or feel their rights are being abrogated, this can cause delays to permitting, operations or indeed cessation of a project.

(f) **Project Access Risk**

The Riqueza Project is accessed by a national arterial highway, sealed roads and gravel tracks in Peru. Seismic activity or extreme weather may result in closure of the highway, roads or tracks thereby delaying access to these projects.

(g) **Sovereign Risk**

The Company cannot guarantee that the government in Peru will remain stable or supportive of the mining and resources sector and existing ownership structures. Accordingly, the Company cannot guarantee ongoing access, surety of title and tenure of its Peruvian based assets. Outcomes in Peruvian courts may be less predictable than in Australia, which could affect the enforceability of contracts entered into by the Company or its subsidiary in Peru.

(h) **Government Policies and Legislation**

Any material adverse changes in government policies, legislation or shifts in political attitude in Australia or Peru that affect mineral exploration activities, tax laws, royalty regulations, government subsidies and environmental issues may affect the viability of a project or the Company.

No assurance can be given that amendments to current laws and regulations or new rules and regulations will not be enacted, or that existing rules and regulations will not be applied in a manner which could substantially limit or affect the Company's exploration and operating activities.

(i) **Commodity Price and Exchange Rate Risk**

The Company's Riqueza Project is prospective, *inter alia*, for zinc, silver, lead and gold. The market price of these commodities fluctuate and are affected by numerous factors beyond the control of the Company. These factors include current and expected future supply and demand, forward selling by producers, production cost levels in major metal producing centres as well as macroeconomic conditions such as inflation and interest rates. Fluctuations in commodity prices may impact on the commercial attractiveness or viability of the Company's projects.

Furthermore, the international prices of most commodities are denominated in United States dollars and the Company's cost base will be in a combination of Australian dollars, United States dollars and Peruvian soles. Consequently, changes in these exchange rates may impact on the expenditure of the Company and the Company's purchasing capacity. The exchange rate is affected by numerous factors beyond the control of the Company, including interest rates, inflation and the general economic outlook

(j) **Environmental Risk**

The Company's projects are subject to Peruvian and Australian laws and regulations concerning the environment. The Company's activities are expected to have some impact on the environment, particularly if advanced exploration or mine development were to occur in the future. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

The Company may, in future, require additional approval from authorities before it can undertake activities that are likely to impact the environment. Failure to obtain such approvals may prevent the Company from undertaking its desired activities. The Company is unable to predict the effect of additional environmental laws and regulations that may be adopted in the future, including whether any such laws and regulations would materially increase the Company's costs of doing business or affect its operations in any area. If the Company's projects prove to be large scale projects, the resulting development of such a large scale project could require a substantial environmental footprint that may demand operating restrictions that could act to make the project uneconomic.

(k) **No Profit to Date**

The Company has incurred losses since its inception. It is therefore not possible to evaluate its prospects based on past performance. Since the Company intends to continue investing in its exploration program the Directors anticipate making further losses in the foreseeable future.

While the Directors have confidence in the future potential of the Company, there can be no certainty that the Company will achieve or sustain profitability or achieve or sustain positive cash flow from its operating activities.

4.2 Industry Risk

(a) **Mining and Exploration Risk**

The business of mineral exploration, development and production is subject to risk by its nature. The success of the business depends, *inter alia*, on successful exploration and/or acquisition of reserves, securing and maintaining title to tenements and consents, successful design, construction, commissioning and operating of mining and processing facilities, successful development and production in accordance with forecasts and successful management of the operations. Exploration and mining are speculative undertakings which may be hampered by force majeure circumstances, land claims and unforeseen mining problems. Increased costs, lower output or high operating costs may all contribute to make a project less profitable than expected at the time of the development decision. There is no assurance that the Company's attempts to exploit its exploration activities will be successful.

The Company's exploration activities to date are not advanced to a stage where reliable reserve or resource estimates can be made. Reserve and resource estimates, if made in the future, are expressions of judgment based on drilling results, past experience with mining properties, knowledge, experience, industry practice and many other factors. Estimates which are valid when made may change substantially when new information becomes available. Ore estimation is an interpretive process based on available data and interpretations and, thus, estimations may prove to be inaccurate.

The actual quality and characteristics of ore deposits cannot be known until mining takes place, and will almost always differ from the assumptions used to develop reserves. Further, reserves are valued based on future costs and future prices and, consequently, the actual reserves and resources may differ from those estimated, which may result in either a positive or negative effect.

No assurance can be given that commercial tonnages, grades or recovery will be achieved or realised. Commodity price fluctuations, as well as increased production costs or reduced recovery rates, may render possible reserves containing relatively lower grades uneconomic and may ultimately result in a restatement of such reserves. Moreover, short-term operating factors relating to possible reserves, such as the need for sequential development of ore bodies and the processing of new or different ore types or grades, may cause a mining operation to be unprofitable in any particular accounting period.

There is a risk that unforeseen geological and geotechnical difficulties may be encountered if and when developing and mining reserves. In this event, a loss of revenue may be caused due to the lower than expected production and/or higher than anticipated operation and maintenance costs and/or on-going unplanned capital expenditure in order to meet production targets.

(b) **Title**

Full and formal transfer of the title to mining concessions in Peru is a reasonably lengthy process. The option and assignment agreement which pertains to the transfer of title to Riqueza's principal concession to Inca was executed in April 2016 and has been valid and in full force since the date of execution. The agreement was then attested through a Public Deed, as is required under Peruvian law, in May 2016. To complete the formal transfer of the title, this Public Deed must now be registered with the Peruvian Public Registry. The Company is advised by its Peruvian lawyers that registration with the Peruvian Public Registry is an administrative process and expected within 10-14 days from the date of this Prospectus.

The Company's mining exploration activities are dependent upon the grant, or as the case may be, the maintenance of appropriate licenses, which may be withdrawn or made subject to limitations. The maintaining of license, obtaining renewals, or getting licenses granted, often depends on the Company being successful in obtaining required statutory approvals for its proposed activities and that the licenses, tenements, leases, permits or consents it holds will be renewed as and when required. There is no assurance that such renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed in connection therewith.

(c) **Results of Studies**

Subject to the results of future exploration and testing programs, the Company may progressively undertake a number of studies in respect to the Company's current or new projects. These studies may include scoping, pre-feasibility and bankable feasibility studies.

These studies will be completed within certain parameters designed to determine the economic feasibility of the Company's current or new projects within certain limits. There can be no guarantee that any of the studies will confirm the economic viability of the Company's current or new projects or the results of other studies undertaken by the Company (e.g. the results of a feasibility study may materially differ to the results of a scoping study).

Further, even if a study determines the economics of the Company's current or new projects, there can be no guarantee that the current or new projects will be successfully brought into production as assumed or within the estimated parameters in the feasibility study once production commences including but not limited to operation costs, mineral recoveries and commodity prices. In addition, the ability of the Company to complete a study may be dependent on the Company's ability to raise further funds to complete the study if required.

(d) **Metallurgy**

Metal or mineral recoveries are dependent upon the metallurgical process, and by its nature processing contains elements of significant risk such as:

- (i) identifying a metallurgical process through test work to produce a saleable metal or concentrate;
- (ii) developing an economic process route to produce a metal or concentrate; and
- (iii) changes in mineralogy in the ore deposit can result in inconsistent metal recovery, affecting the economic viability of the project.

No assurance can be given that any particular level of recovery from mineral resources or reserves will in fact be realised or that a mineral resource will ever qualify as commercially viable which can be legally and economically exploited.

(e) **Economic and Government Risks**

Economic and legislative changes in either Australia or Peru may affect the future viability of the Company. The future viability of the Company is also dependent on a number of other factors affecting the performance of all industries, not just the exploration and mining industries. These factors include, but are not limited to:

- (i) General economic conditions in Australia, Peru and their respective major trading partners.
- (ii) Changes in government policies, taxation and other laws.
- (iii) The strength of the equity and share markets in Australia and throughout the world, and in particular investor sentiment towards the commodities (resources) sector.
- (iv) Movement in, or outlook on, interest rates and inflation rates.
- (v) Natural disasters, social upheaval or war in Australia, Peru and other countries.

Industry profitability can be affected by changes in government within Peru, Australia and other jurisdictions, which are not within the control of the Company. The Company's activities are subject to extensive laws and regulations controlling not only the exploration for and mining of minerals, but also the possible effects of such activities upon the environment and upon interests of native and/or indigenous peoples. Permits from a variety of regulatory authorities are required for many aspects of mine operation and reclamation. There is no assurance that permits will be obtained when sought or that unfavourable conditions will not be imposed. Future legislation and regulations could cause additional expense, capital expenditures, restrictions and delays in the development of the Company's tenements, the extent of which cannot be predicted.

(f) **Reliance on Key Personnel**

The responsibility of overseeing the day to day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their involvement with the Company.

(g) **Competition**

The industry in which the Company is involved is subject to domestic and global competition. While the Company undertakes all reasonable due diligence in its business decisions and operations, the Company has no influence or control over the activities or actions of its competitors and these activities or actions may positively or negatively affect the operating and financial performance the Company's projects and business.

(h) **Insurance**

Insurance of all risks associated with exploration is not always available and, where it is available, the cost may be high. The Company will have insurance in place considered appropriate for the Company's needs.

The business of the Company is subject to a number of risks and hazards generally, including adverse environmental conditions, industrial accidents, labour disputes, unusual or unexpected geological conditions, ground or slope failures, cave-ins, changes in the regulatory environment and natural phenomena such as extreme weather conditions, floods and earthquakes. Such occurrences could result in damage to mineral properties, buildings, personal injury or death, environmental damage to properties of the Company or others, delays in mining, monetary losses and possible legal liability.

Although the Company maintains insurance to protect against certain risks in such amounts as it considers to be reasonable, its insurance will not cover all the potential risks associated with its operations and insurance coverage may not continue to be available or may not be adequate to cover any resulting liability, particularly as the Company is seeking to acquire new projects which are located in other jurisdictions or involve a new commodity.

It is not always possible to obtain insurance against all such risks and the Company may decide not to insure against certain risks because of high premiums or other reasons. Moreover, insurance against risks such as environmental pollution or other hazards as a result of exploration and production is not generally available to the Company or to other companies in the mining industry on acceptable terms. Losses from these events may cause the Company to incur significant costs that could have a material adverse effect upon its financial performance and results of operations.

4.3 General Risk

(a) **Securities investments**

There are risks associated with any securities investment. The prices at which the Securities trade may fluctuate in response to a number of factors. Furthermore, the

stock market, and in particular the market for mining and exploration companies, has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of such companies. There can be no guarantee that trading prices will be sustained. These factors may materially affect the market price of the Securities regardless of the Company's operational performance.

(b) Share Market Conditions

Share market conditions may affect the value of the Company's Shares regardless of the Company's operating performance. Share market conditions are affected by many factors including but not limited to the following:

- (i) General economic outlook.
- (ii) Interest rates and inflation rates.
- (iii) Currency fluctuations.
- (iv) Mineral price fluctuations.
- (v) Changes in investor sentiment toward particular market sectors.
- (vi) The demand for, and supply of, capital.
- (vii) Terrorism or other hostilities.
- (viii) Other factors beyond the control of the Company.

The market price of the Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company, or any return on an investment in the Company.

(c) Economic Risk

Changes in the general economic climate in which the Company operates may adversely affect the financial performance of the Company. Factors that may contribute to that general economic climate include the level of direct and indirect competition against the Company, industrial disruption, the rate of growth of gross domestic product in Australia, Peru or any other country in which the Company operates, interest rates, exchange rates and the rate of inflation.

(d) Competition

The Company will compete with other companies, including other mineral exploration and mining companies. Some of these companies have greater financial and other resources than the Company and, as a result, may be in a better position to compete for future business opportunities. Many of the Company's competitors not only explore for and produce minerals, but also carry out refining operations and produce other products on a worldwide basis. There can be no assurance that the Company can compete effectively with these companies

4.4 Investment Speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors and others not specifically referred to above, may, in the future, materially affect the financial performance of the Company and the value of the Securities offered under the Prospectus.

The Securities offered pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Securities.

5. Rights attaching to Securities

5.1 Rights attaching to New Shares

The following is a summary of the more significant rights and liabilities attaching to New Shares to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with Section 249D of the Corporations Act and the Constitution.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price for the share.

(c) Payment of Dividend

Subject to the Corporations Act, the Constitution and the rights of any persons entitled to shares with special rights to dividend, the Directors may determine that a dividend is payable, fix the amount and the time for payment of the dividend and authorise the payment or crediting of the dividend by the Company to, or at the direction of, each Shareholder entitled to that dividend. No dividend shall carry interest as against the Company.

(d) Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders. The

liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other Securities in respect of which there is any liability.

(e) Transfer of Shares

Generally, Shares in the Company are freely transferable, subject to the Constitution and to any restrictions attached to a Share, a Shareholder may transfer any of any of the Shareholder's Shares by:

- (i) a proper ASTC transfer;
- (ii) a written transfer in any usual form or in any other form approved by the Directors; or
- (iii) any other electronic system established or recognised by the Listing Rules.

(f) Future increase in capital

The allotment and issue of any Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing Share or class of Shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(g) Variation of rights

Under Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(h) Changes to Constitution

The Constitution can only be amended by a special resolution passed by at least three quarters of the members present and voting at a general meeting of the Company. At least 28 days' written notice specifying the intention to propose the resolution as a special resolution must be given.

(i) Meetings and Notices

Each Shareholder will be entitled to receive notice of, and to attend and vote at, general meetings of the Company and to receive notices, accounts and other documents required to be furnished to Shareholders under the Constitution, the Corporations and the Listing Rules.

5.2 Dividend Policy

The Company does not intend to declare or pay any dividends in the immediately foreseeable future.

Any future determination as to the payment of dividends by the Company will be at the sole discretion of the Directors and will depend on the availability of distributable earnings and operating results and financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

6. Additional Information

6.1 Continuous Disclosure Obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares which will be issued pursuant to this Prospectus are in the same class as Shares that have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus.

This Prospectus is a "transaction specific prospectus" to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or operation to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the issue of New Shares on the Company and the rights attaching to the New Shares. It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the closing date of the Offers:

- (i) the annual financial report of the Company for the financial year ended 30 June 2015 being the most recent annual financial report of the Company lodged with the ASIC before the issue of this Prospectus; and
- (ii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the financial statements referred to in paragraph (i) above until the issue of the Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

6.13 Information Excluded from Continuous Disclosure Notices

There is no information which has been excluded from a continuous disclosure notice in accordance with the Listing Rules, and which is required to be set out in this Prospectus.

6.14 Determination by ASIC

ASIC has not made a determination which would prevent the Company from relying on section 713 of the Corporations Act in issuing the Securities offered under this Prospectus.

6.15 Electronic Prospectus

Pursuant to Regulatory Guide 107, ASIC has exempted compliance with certain provisions of the Corporations Act to allow distribution of an electronic copy of this Prospectus on the basis of a paper Prospectus lodged with ASIC and the issue of New Shares in response to an

electronic Entitlement and Acceptance Form, subject to compliance with certain provisions. If you have received an electronic copy of this Prospectus, please ensure that you have received the entire Prospectus accompanied by the Entitlement and Acceptance Form. If you have not, please contact the Company and the Company will send to you, free of charge to you, either a hard copy or a further electronic copy of this Prospectus, the Acceptance Form or both.

The Company reserves the right not to accept an Acceptance Form from an Applicant if it has reason to believe that when that Applicant was given access to the electronic Acceptance Form, it was not provided together with an electronic copy of this Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered. In such a case, the Application Monies shall be held by the Company on trust and returned (without interest) to the Applicant as soon as practicable.
