#### Entitlement Issue

Inca Minerals Limited (ASX: ICG, **Inca** or **the Company**) is pleased to announce that it has launched a Renounceable Rights Issue to raise up to approximately \$1.6 million.

The Renounceable Rights Issue has been offered on a one for four basis at 0.2 cents per fully paid ordinary share to raise up to \$1.6 million, with 2 attaching options (exercise price of \$0.007 and 3 year term) for every 3 new shares subscribed for under the Renounceable Rights Issue. The Company will apply for listing of new shares and new options on the ASX.

Eligible shareholders can trade their rights and apply for shortfall in excess of their entitlement. The rights will commence trading on 2 October 2019.

Commenting on the Rights Issue, Inca Minerals Managing Director Ross Brown said: *"We are pleased to be able to offer shareholders the opportunity to participate in this raising on such favourable terms. The Company is entering a phase of sustained exploration (and newsflow) with our flagship Riqueza Project funded by a global mining house and with new and exciting projects, located in Queensland and the Northern Territory, with tremendous up-side potential. Our strategy is to achieve significant free-carry positions in multiple exploration and development projects, enabling the ultimate objective of owning our own mining production."*

*The proceeds from the Rights Issue will allow the Company to conduct exploration at its new projects. As well as generating sustained newsflow, the objective of upcoming exploration is to increase the value of each project and to attract potential major partners in doing so. We look forward to updating shareholders as we complete these objectives over the coming months.”*

The Renounceable Rights Issue provides shareholders with a registered address in Australia and New Zealand with the opportunity to take up new shares proportional to their shareholding and avoid dilution.

A prospectus for the offer and a personalised entitlement and acceptance form will be sent to eligible shareholders in accordance with the below timetable. Shareholders should consider the prospectus in deciding whether to acquire the securities. Eligible shareholders wishing to participate will need to complete the application form that will accompany, the prospectus.
